Did you know? Denisa is the Restorative Action (RA) facilitator in ATS this year and has already facilitated a number of learning circles with youth in the school! She has also provided several tips and strategies for discussions to start having with your teens which we will share each week. **Challenge for Parents and Caregivers at Home:** one of the preventative sessions RA facilitators do is how to deal with conflict on social media and overall social media awareness. Something students are encouraged to do is to take 24 hours off of all screens. Some of them have noticed how difficult it was and how much screens are part of their lives. A challenge for parents to implement this at home for 24 hours or even for a full weekend. Social media detox is a healthy practice that all individuals need at some point, so doing this as a family can encourage this habit with youth.

Safer Schools Together has added more dates for their Social Media Awareness Family Sessions. Dates, times and information to register can be found at the following link: [erase Family Sessions \(saferschoolstogether.com\)](https://saferschoolstogether.com)
